Comments i

Part I AFDC PROGRAM

Table I Cases and Payments 1

Table II Parents, Children and Total Persons 2

Part II GENERAL PUBLIC ASSISTANCE PROGRAM

Table I All GPA Maintenance and Medical Caseloads and Payments 3

Table II All GPA Medical Caseloads and Payments 4

Table III Medical Caseloads and Payments for Closed Cases and Medically Only Needy 5

Part III MISCELLANEOUS TABLES

Table I Medicaid - Cases and Persons Eligible for Medical Assistance Only 6

Table II Food Stamps - Cases and Persons Authorized as of First of Month 7

Table III SSI - Cases and Persons Receiving Supplemental Security Income 8

Research and Statistics

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payment on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

AFDC TABLE I - JULY 1980

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two. Cancelled checks, imprest payments and other adjustments are not reflected.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two. Cancelled checks, imprest payments and other adjustments are not reflected.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payment. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payment on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilites.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

Statistics on Assistance Caseloads and Payments by City and Town

November, 1980

Comments i

Part I AFDC PROGRAM

Table I Cases and Payments 1

Table II Parents, Children and Total Persons 2

Part II GENERAL PUBLIC ASSISTANCE PROGRAM

Table I All GPA Maintenance and Medical Caseloads and Payments 3

Table II All GPA Medical Caseloads and Payments 4

Table III Medical Caseloads and Payments for Closed Cases and Medically Only Needy 5

Part III MISCELLANEOUS TABLES

Table I Medicaid - Cases and Persons Eligible for Medical Assistance Only 6

Table II Food Stamps - Cases and Persons Authorized as of First of Month 7

Table III SSI - Cases and Persons Receiving Supplemental Security Income 8

Research and Statistics
March 30, 1981

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual [illegible] in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two. Cancelled checks, increase payments and other adjustments are not reflected.

II. [illegible]

As the name implies, GPA is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly amounts sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client [illegible].

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payment. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on [illegible] at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, [illegible], is for those persons whose only need is for medical and who meet the [illegible] requirements for the federal Medicaid program. This does not include the [illegible] medically needy program, nor does it include [illegible] nursing homes or intermediate care facilities.

The [illegible] table, Food Stamps, covers all of those persons who [illegible] food stamps. Please note this does not mean all of [illegible].

[illegible] persons receiving Supplemental Social Security Income. The distribution by city and town in this table must be considered as estimated. [illegible] give us a city/town code. So we must work with [illegible] data. This is complicated in Rhode Island by [illegible] overlap city/town boundries.

If any [illegible] or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address [illegible] or by telephone (401-464-230[illegible]).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two. Cancelled checks, imprest payments and other adjustments are not reflected.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payment. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it inlcude some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who acutally used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payments on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in'time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payment on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).

Statistics on Assistance Caseloads and Payments by City and Town

April, 1981

Comments i

Part I AFDC PROGRAM

Table I Cases and Payments 1
Table II Parents, Children and Total Persons 2

Part II GENERAL PUBLIC ASSISTANCE PROGRAM

Table I All GPA Maintenance and Medical Caseloads and Payments 3
Table II All GPA Medical Caseloads and Payments 4
Table III Medical Caseloads and Payments for Closed Cases and Medically Only Needy 5

Part III MISCELLANEOUS TABLES

Table I Medicaid - Cases and Persons Eligible for Medical Assistance Only 6
Table II Food Stamps - Cases and Persons Authorized as of First of Month 7
Table III SSI - Cases and Persons Receiving Supplemental Security Income 8

Research & Statistics
August 18, 1981

COMMENTS

I. AFDC PROGRAM

The tables in this section are a report on the status of the AFDC program on the last pay period of each month. Rhode Island pays every other week, so that in two months of the year there are three pay periods and in the rest only two. Therefore this is a "point-in-time" report rather than a report on the actual experience in any given month. It will thus differ from the official fiscal office reports. It is useful only for trend data. The payment figures must be considered as estimated since they show only the payment on the last payday, multiplied by two.

II. GENERAL PUBLIC ASSISTANCE PROGRAM

As the name implies, this is the "catch all" program for clients who are not eligible for other programs. It is 100% state financed. GPA payments are made weekly, thus these monthly reports sometimes cover four weeks, sometimes five.

The first table covers every single payment made to every single GPA client for whatever reason.

The second table covers payments made for medical needs for GPA clients. These same clients may also be receiving payments for their maintenance needs. Figures in GPA Table II are also included in GPA Table I.

Table III covers medical payments for cases which in that particular month did not receive any other kind of payments. These may be cases whose only need was for medical in that month, or they may be medical bills paid for a case which was on the regular GPA assistance program at the time a medical expense was incurred but whose case was closed before the bill was paid. Figures in this table are also included in GPA Table I and GPA Table II.

III. MISCELLANEOUS TABLES

The first table, Medicaid, is for those persons whose only need is for medical and who meet the category requirements for the federal Medicaid program. This does not include the people in the GPA medically needy program, nor does it include some aged, blind and disabled people in nursing homes or intermediate care facilities.

The second miscellaneous table, Food Stamps, covers all of those people who were authorized to receive food stamps. Please note this does not mean all of those who actually used food stamps.

Table III is for the persons receiving Supplemental Social Security Income. The designations by city and town in this table must be considered as estimated. Our reporting on this does not give us a city/town code. So we must work with zip codes in order to get city/town data. This is complicated in Rhode Island by the fact that some zip codes overlap city/town boundries.

If any further information or clarification is needed about any of the figures in these tables, please feel free to contact the Research Office of the Rhode Island State Department of Social and Rehabilitative Services, either by mail at the address indicated on the cover or by telephone (401-464-2305).
